Intentional Interior Re- Design Professional Certification

The Intentional Interior Re-Design Program uniquely integrates the principles of Feng Shui, Intentional Design, Green Design and Universal Principles.

Intentional Interior Re-Design highlights the psychology of the space through the principles of the art of placement and the study of the person place connection. This philosophy finds its basis in the natural, behavioral, and physical sciences, and identifies energy as its essential ingredient. In achieving the Intentional Design, we evaluate the deeper significance of the individuals, goals, and desires to assess and balance all the elements. The Intentional Re-Design creates a sustainable felt experience, which continues to inspire, your clients' hearts desires.

New Thought teacher Mary Dennis created an award winning -template of Intentional Interior Re-Design, which results in creating life-work balance, ease, and grace. Her purposeful innovations and research enhance well- being. Her teachings create a template to sustain a lifestyle that is timeless, resulting in a felt experience, which she fondly calls an "Interior Attunement," a soul satisfying, experiential design.

The Intentional Interior Re-Design Certification is a Mastery Program that addresses the harmony and balance unique to each dwelling which allows for the creation of sacred spaces.

History of the Intentional Design Program

For over 40 years, Mary Dennis has been on a quest to understand the person place connection and the experiential effect of place. Her life-long passion is to create healing environments. What she has learned over the years is: We all experience physical, mental and emotional environments every day of our lives. These environmental experiences affect our attitude, understanding, and our responses to our current situation and largely define us as individuals. Our entire range of emotions, from pleasure to depression can be experienced as a result of our surroundings. Our emotions have a psychological effect on our bodies. Our psychological wellness, along with our cardio-vascular system, neurological system, immune system, and endocrine functions are all interlinked and affected by environmental experiences.

Intentional, environmental designs influence and enhance well-being. Through the correct placement of all things, a new order is physically generated to foster harmony and balance. The occupant's intentions and hearts desires are integrated through a conscious choice of elements and energy. It is a soulful alignment, which is called Interior Attunement.

Interior Attunement occurs when the inner physical aspects of self are aligned, as a result of the intentional design. Through this alchemy an inner sense of well-being is experienced and valued.

Through the School of Graceful Lifestyles, Mary Dennis created a template of Intentional Design, which results in creating calm, ease and grace. Purposeful innovations and research enhance well-being. Teachings create a template to sustain a lifestyle that is timeless, resulting in a soul satisfying, experiential design.

CONSCIOUS DESIGN
INSTITUTE

The Conscious Design Institute is proud to welcome Mary Dennis as Director of Design. With a background in Feng Shui, Interior Design and Healing Modalities, Mary Dennis brings her rich wisdom to empower the Conscious Design Institute's design department. We are excited to offer her key signature program - Intentional Interior Re-Design, a Mastery level certification program.

Traveling a common path for over twenty years, *Wisdom Keeper's* Renae Jensen and Mary Dennis have been inspired to work together. This collaboration is one driven by a common vision to create balance and harmony in the world with conscious, responsible, and heart-based choices.

"The Intentional Design Program, offered through Graceful Lifestyles and Mary Dennis, was a profound experience for me. After completing the certification course, I went on to utilize my feng shui and design skills in many homes and offices. My greatest joy was to re-design and shift a 3-story office building in New Jersey – saving the building from Eminent Domain, and uplifting the harmony and prosperity overall. My confidence was supported and nurtured by Mary Dennis. My personal experience made me certain that this profound program and knowledge belongs in the Conscious Design template.

I am happy to now bring Intentional Interior Re-Design into the Conscious Design Institute as a signature program. I highly recommend it for both personal and professional knowledge – it is great for realtors, interior designers, feng shui professionals, building trades, home stagers, and anyone wishing to design their own home. This course has given me focus, insight to challenges and opportunities I would never have imagined experiencing. Your knowledge and wisdom has grounded me and my business. I for-see success no matter what comes my way. You are my light.

Thank you. –Iris

From the moment I met Mary Dennis I knew I was in the presence of someone very special. I had an immediate resonance with her energy and her level of conscious awareness. In my early years of studying energy healing, and feng shui, I use to put my focus on what I am going to learn from this class/teacher. In recent years my focus has been directed to how can this teacher/healer support my conscious awakening and further my development as a practitioner of the healing arts. I am no longer driven to the knowledge piece, rather the vibration of the practitioner, and how they can help raise my own vibration and Mary Dennis did just that.

Right away you know you are in the presence of someone who is living the work she is teaching. She is direct and to the point and pushes you to be all that you can be, all that she knows you are capable of being, as she is not attached to your story. The growth I have attained in the short time I have known MD is remarkable. The 5 Day Redesign program was all that I thought it would be and then some. Her manual for the class is so comprehensive you won't need to purchase another Feng Shui book. The class broke down barriers in my approach to Feng Shui and how I analyze and design a space. MD invites you to step out of the box and take your practice to the next level. Her class is definitely worth the investment.

This program has given me a wealth of knowledge and interest to further pursue learning in designing interiors and in Feng Shui. I am eager to begin a new career and feel I have the continued support of Graceful Lifestyles and all the new colleagues I have met. The experience was wonderful. Mary Dennis is a blessing to my life and a true inspiration.
